**GARDENERS APPLY PERSIST™ BIOCHAR TO NATURALLY ENHANCE THE STRUCTURE AND  
WATER-HOLDING CAPACITY OF ALL TYPES OF PLANTING SOIL. THIS ALL-NATURAL PRODUCT HELPS  
CREATE A ROOTZONE ENVIRONMENT FOR ALL TYPES OF PLANTS TO THRIVE**

This product comes from a bioenergy high-temperature gasification process that converts pistachio shells into syngas which is used to power generators to produce bio-electricity that is added to the CA-US electricity grid for use.

**NONPLANT FOOD INGREDIENT**

**100% Pistachio Shell Biochar**

Product produced and packaged in the USA.
