# PERSIST® PAF

**Description & Use:** Persist® PAF is a pyroligneous acid liquid which may enhance plant growth. For use on organic crops and horticulture including vegetables, fruit & nut trees, grains, shrubs, flowers and turf.

## APPLICATION GUIDELINES

(These are general use guidelines and may be adjusted as needed.)

SOIL	Dilute with water to a ratio of 1:100 and spray onto soils to achieve 2-4 inches of even penetration. Wait 2 weeks before planting.
SEEDLINGS	Dilute with water to a ratio of 1:200 to 1:500 for foliar spray or drip/root irrigation. Apply first foliar application at/after the 2nd leaf stage and then repeat every 15 days.
GROWING/MATURE PLANTS	Dilute with water to a ratio of 1:100 to 1:400 for foliar spray or drip/root irrigation. Repeat every 2-4 weeks.

Spraying is best done in morning or evening conditions. If it rains within 24-hours of use, the application should be repeated after the plants have dried. Avoid use during flowering stages.

Don't use in combination with alkaline pesticides.

Tightly reseal the container and store at room temperature out of direct sunlight. Wear hand and eye protection when handling. Not for human consumption.

## SAFETY DIRECTIONS:

Do NOT swallow. Use in a well ventilated area. Avoid contact with skin and eyes. Wash hands after use. Wear gloves, long sleeves and glasses.

## SAFETY DATA SHEET:
